## MARBLE & TERRAZZO RENOVATOR INFORMATION SHEET

### USE:

Designed for use on marble, terrazzo and concrete floors prior to sealing or polishing.

### DIRECTIONS:

Wear protective gloves. Before use, always test an inconspicuous area for suitability. This is particularly relevant for marble as reaction to acids can vary considerably. Dilute 1 part with 5 parts of water and apply to the floor with a mop. Leave in contact for at least half an hour, keeping the surface moist, do not allow to dry out. Mop the liquid from the floor and rinse thoroughly with clean water, give a final rinse with a mild alkaline solution and allow the floor to dry thoroughly before applying a seal or polish.

### TECHNICAL:

State:	Liquid
Colour:	Colourless
Odour:	Characteristic odour
Oxidising:	Non-oxidising (by EC criteria)
Solubility in water:	Soluble
Viscosity:	Non-viscous
Boiling point/range°C:	100
Flash point°C:	70
pH Level:	<2

**PERSISTENCE AND DEGRADABILITY:** The surfactants in this product comply with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. Data to support this assertion are held at the disposal of the component authorities of the Member States and will be made available to them at their direct request or at the request of the detergent manufacturer.
